

K-Love provides excellent information, and specific Christian music to our community. I listen to it regularly and find it extremely valuable. There isn't another service of this caliber available in the Cincinnati area. Many folks have commented on how valuable this outreach is to our local community, especially in light of the other rude and disgusting FM stations where profanity and disrespectful lyrics fill the airwaves. We love 104.3 FM, K-Love station. We direct new Christians who do not know much about the Bible to this station for education. This also allows us to support the local Christian bookstores by hearing music and book references on this station. This is in the public best interest to have this station available instead of being displaced by an LPVW broadcaster providing other programming. We have enough "other" programming. Please keep K-Love available to our community so that it can serve the public interest. (afterall, isn't that supposed to be the purpose of radio, to inform and entertain)

Thanks for listening. Debbie Mysliviec
